Introduction

The following research paper, entitled "Lustration, or, Ukraine under KGB Control," is a public information project aimed at uncovering the presence of probable KGB agents and top-ranking communist and Komsomol members of the former USSR in Ukraine's government apparatus.

Their numbers and percentages have been computed on the basis of public information. The biographies of 909 Ukrainian state officials and MP's working in the following institutions have been verified: the Presidential Secretariat, Cabinet of Ministers, the central organs of executive power, the National Bank, Central Election Commission, Verkhovna Rada, political parties of Ukraine, et al.

We are convinced that **what we are seeing is just the tip of the iceberg** because the sources that are accessible to the public often do not list complete information about the educational background and careers of former Soviet Ukrainian state officials.

1. Methodology

a. Principles

The verification of the government in Ukraine was conducted according to the principles of the so-called "lustration" law no. 451/1991 Sb of 4 October 1991, which was passed by the Czech and Slovak Federal Republic, today the two independent states of the Czech Republic and Slovakia.

According to its articles, high-ranking Communist Party functionaries, personnel of the former communist State Security Service (StB)², graduates of Soviet KGB institutions of higher education, and several other categories of individuals³, are forbidden to hold top positions in the state service and the army, to run in elections at any level, and to carry out any other electoral functions. The Law does not extend to citizens who were born after 1 December 1971.

Therefore, the verification of Ukraine's state officials was conducted according to the following biographical data⁴:

- **Year of birth;**
- **Country of birth:** Ukrainian SSR, RSFSR, etc.;
- **Citizenship:** at birth; acquired; unknown;
- **Education:** this paper focuses mostly on higher education obtained prior to 1992;
- **Membership in the Leninist Communist Youth League (VLKSM; Komsomol), probability:** none/little; high; very high; Komsomol member;
- **Mandatory service:** none/unknown; yes; yes, KGB Border Troops; yes, Afghanistan, Hungary, Germany, Czechoslovakia;
- **Membership in the Communist Party of the Soviet Union (CPSU), probability:** none/little/unknown; high; critical; communist;
- **Previous convictions:** yes; no;
- **KGB Agent, probability:** none/little/unknown; high; critical; agent; codename;
- **Top members of the Komsomol, CPSU, KGB;**
- **Relatives, top members of the Komsomol, CPSU, KGB;**
- **Place of employment;**
- **Membership in Ukraine's political parties.**

² Abbreviation of Státní bezpečnost (StB), branch of the KGB in Czechoslovakia.

³ See Addendum 1.

⁴ Various data and tables are accessible to the public. For more detailed information, see the Addendum: Research Files paragraph.

a. Probability Level

The probability level was determined according to information that the compiler was able to cull from available biographies.

The "KGB" probability increases if a state official:

- ➡ studied in a specialized educational institution run by the KGB of the USSR;
- ➡ studied in a specialized educational institution run by the CPSU;
- ➡ completed mandatory service in the border troops of the KGB of the USSR;
- ➡ completed mandatory service outside the USSR, e.g., in Czechoslovakia, GDR, Hungary, Afghanistan;
- ➡ has a biography that contains a phrase along the lines of: "1979-96—[worked] in Ukraine's state security organs";
- ➡ conceals his Soviet-era past: various sources contain no data whatsoever on various officials;
- ➡ occupied high positions in the Komsomol, CPSU, or KGB;
- ➡ has relatives who were top members of the Komsomol, CPSU, KGB;
- ➡ was or still is a member of the CPU, SPU.

The probability level of membership in the top echelons of the CPSU and the Komsomol was similarly determined.

a. Sources

Biographies of state officials were gathered from Ukrainian government Web sites:

www.president.gov.ua
 www.kmu.gov.ua
 www.rada.gov.ua
 www.rainbow.gov.ua
 www.cvk.gov.ua

as well as from government Web sites of the central organs of executive power⁵: ministries, state committees of Ukraine, central organs of executive power with special status, other central organs and institutions of Ukraine;

and government Web sites of various justice agencies.

Additional verification of these biographies was carried out by consulting the pages of:

www.vlada.kiev.ua
 www.dovidka.com.ua
 www.uk.wikipedia.org

Only seven articles from the print media, which are known to the general public, were consulted :

3. Other Statistics

a. Country of birth

- ✓ **16% of Ukraine's state officials, i.e., 149 individuals, did not indicate their country of birth in open media sources.**
- ✓ 10% of Ukraine's state officials, i.e., 88 individuals, were born in the RSFSR.
- ✓ 74% of Ukraine's state officials, i.e., 672, were born in the Ukrainian SSR.

b. Citizenship

- ✓ **24% of Ukraine's state officials, i.e., 218 individuals, did not indicate their citizenship in open media sources.**
- ✓ 3% of Ukraine's state officials, i.e., 25 individuals, acquired Ukrainian citizenship after 1992.
- ✓ It may be assumed that 73% of Ukraine's state officials, i.e., 666 individuals, have Ukrainian citizenship.

c. Komsomol

- ✓ Only 4%, i.e., 32 people, out of a total of 909 state officials in Ukraine, may not have been a member of the Komsomol (low probability).

d. Previous convictions

- ✓ Out of 909 state officials, only one individual is known to have a previous conviction: Viktor Yanukovich.

e. Observations

- ✓ A logical correlation is observed: former KGB agents, communists, and Komsomol members, as well as the election falsifiers of 2004, all attended "retraining/regrouping" at the Kharkiv-based Ya. Mudry National Legal Academy (formerly the All-Ukrainian Communist Institute of Soviet Construction).
- ✓ Also observed is the tendency to engage the services of Soviet-era, so-called universal "highly qualified cadres, in all branches of the national economy and socio-cultural life"¹³ **in Ukraine's state governance. In contrast, there are practically no intellectual, state-building, or ideological figures who would work conceptually for the good of Ukraine.**

¹³ "All cadre work in the Soviet state administration is carried out under the systematic and unflagging leadership of the Communist Party of the Soviet Union." See I. M. Pakhomov, *Radianske administrativne pravo* (Lviv: Drukarnia vydavnytstva Lvivskoho derzhavnoho universytetu, 1962).

RESOLUTION

Verkhovna Rada of Ukraine

On marking the 90th anniversary of the founding of the Komsomol of Ukraine

26 June 2009 marks the 90th anniversary of the founding of the Komsomol of Ukraine (LKSMU), which became a unique school of courage and ideological and moral tempering, in which tens of millions of our countrymen were raised on the finest militant and labor traditions of our people, and which led to the formation of a whole group of statesmen, politicians, scientists, specialists in all spheres of knowledge, as well as cultural and artistic figures, athletes, and military personnel.

The history of the Komsomol movement is marked by the enduring feats of those who built their country, defended it from the fascist aggressors during the Great Patriotic War, raised from the ruins entire cities and villages, plants and factories, collective farms and Soviet state farms, schools, hospitals, theaters, and houses of culture, who actively assisted in the liquidation of illiteracy, raised national scholarship to world levels, made an important contribution to the development of the unique culture of the Ukrainian people, and were models of an active, vital position, devotion to the Fatherland, readiness to defend its independence, rights and freedoms of individuals and citizens, and high moral qualities.

The Verkhovna Rada of Ukraine notes that the great contribution of the Komsomol movement to state building cannot simply be an achievement of history; it should help instill in the current generation of young people a feeling of personal responsibility for their country's destiny, rejection of corruption, alcohol abuse, drug addiction, prostitution, and other negative phenomena.

The Verkhovna Rada of Ukraine resolves:

1. To support the Komsomol veterans' initiative to mark the 90th anniversary of the Komsomol in Ukraine on 26 June 2009.
2. That the Cabinet of Ministers of Ukraine should implement immediate measures to mark the 90th anniversary of the founding of the Komsomol of Ukraine, envisaging the holding of solemn gatherings of representatives of Komsomol veterans' organizations at the Ukraina National Palace of the Arts.
3. To urge the State Committee for TV and Radio Broadcasting of Ukraine, local state administrations, and local self-governing bodies to help Komsomol veterans' organizations implement the measures connected with the commemoration of the anniversary of the Komsomol of Ukraine (LKSMU), with the goal of directing more attention to problems of young people and their upbringing, and boosting activity in carrying out the various tasks that our country is facing.

4. To assign control over the implementation of this Resolution on the Parliamentary Committee on Family Affairs, Youth Policy, Sports, and Tourism.

Head of the Verkhovna Rada of Ukraine V. Lytvyn

6. Conclusion¹⁵

The results of this investigation demonstrate unquestionably that the **government, as well as the "wide-ranging" political spectrum in Ukraine is a KGB-communist structure**, which is maintained with the aid of the substitution of concepts, half-truths, theater, and artificial competition.

Thus, it is unmistakably evident that the tasks of Ukraine's state officials under the control of the KGB and the former communist elite is to discredit the independence of the state: to foster the deterioration in the people's attitude to the idea of independence **through the destruction of the law, absence of reforms, and proliferation of "kitsch,"**¹⁶ and to spark nostalgia for the idea of reuniting Ukraine with Russia in the form of a neo-USSR.

In addition, after examining the Lustration project in the light of the latest sociological research¹⁷ which indicates that:

- 85% of Ukrainians condemn the activities of their state leaders, with only 4% satisfied with their work¹⁸
- 85% of Ukrainians consider the actions of their state leaders to be incorrect¹⁹ and
- the Ukrainian government blocks citizens' initiatives²⁰: only 25% of civic organizations are satisfied with their cooperation with local self-government bodies

we declare that **there is no democracy in Ukraine**²¹, KGB men have replaced it in the mass consciousness with another, quite relative, concept: "freedom of expression."

A detailed verification of other state officials and members of the 161²² remaining political parties will reveal the universal presence of the CPSU and the KGB in the destruction of the Ukrainian state.

There will be no state until official lustration is carried out in Ukraine.
